

Online Tours and Travels Management

PROJECT:

Online Tours and Travels Management is a software web application to book multiple types of tickets online. Presently this web site will offer Trip booking, Air Ticket Booking and Bus Ticket Booking. So for all type of travelers this website provides a solution to book their tickets online and make the payment online. The site is also providing the communication between user and the administration. This project has two modules, one admin module and the client module.

In admin module all the master entries, ticket pricing, trip details, flight details, bus details, and their schedule etc can be entered. So admin complete control on the site. Apart from this in each section proper reports are provided to know how many tickets are booked in each section.

In case of user module, user can signup after that they can able login into the site, they can search for the different trips, flight details, bus details etc., After searching they can able to book the tickets.

OBJECTIVE:

The main objective of the application is to automate the existing system of issuing tickets at only at select outlets to make available online, so each customer can book their tickets online by sitting at his or her place.

Existing System

Presently this company have ticket counters in the airport. Where people as to come to book the tickets or to check the flight timings. Also there are many travel agents take the advance booking. In turn these agents will check out with the main ticket counter officials for the ticket confirmation. Which is very lengthy and tedious process.

Proposed System

The proposed system will available online. So anybody who are interested in ticket booking they login and able to book the tickets. They can also can able to search the required information in this site.

Hardware and Software requirement

Hardware Requirement

| | | |
|-----------|---|--------------------------------|
| Processor | : | Intel Core Duo 2.0 GHz or more |
| RAM | : | 1 GB or More |
| Harddisk | : | 80GB or more |
| Monitor | : | 15" CRT, or LCD monitor |
| Keyboard | : | Normal or Multimedia |
| Mouse | : | Compatible mouse |

Software Requirement

| | | |
|------------------------|---|--|
| Front End | : | Visual Web Developer 2008 With Sql Server Compact Edition Or Visual Web Developer 2010 With Sql Server Compact Edition |
| ASP.net with VB Coding | | |
| Back End | : | MS Sql Server |
| Operation System | : | Windows XP with server pack 3 Or Windows 7 |
| Browser | : | Internet Explorer or Google Chrome |

SOFTWARE SPECIFICATION

| | | |
|------------------|---|-----------------------|
| Technology | : | Java and J2EE |
| Web Technologies | : | HTML, JavaScript, CSS |
| Web Server | : | Tomcat5.5 |
| Database | : | Oracle10g |
| JDK Version | : | JDK1.5 |

To buy this project you can send us a request by SMS (Mobile No **9243101428**) or email (rakshainfotech@gmail.com)

We also undertake new projects, if you require any new project write to us. We can develop the new project in a weeks time.

The project will be provided along with the source code. So you have an option to change the color, design, and look and feel. So all options are open to modify the project as per your requirement.

Projects Available in

Offline Project (Windows based)

Visual Basic 6 with MS Access

Visual Basic 6 with Sql Server

Visual Basic 6 with Oracle

Vb.net (Visual Basic 2010, 2013) with Sql Server

C Sharp (2010, 2013) with Sql Server or any other backend

Online Projects (Web Based)

ASP projects with MS Access or Sql Server Or Oracle

ASP.Net Project with VB coding or C sharp Coding with Sql Server
